

# Camilo Rosales Associate Professor

Camilo received a Master of Architecture II in Building Design from Harvard University, and a Master and Bachelor of Architecture with Honors from the University of Texas at Austin where he was a Senior College Scholar. Mr. Rosales is a registered architect in the states of New York and Florida. As a practicing professional he has received awards from the American Institute of Architects and his personal work has been published in architectural journals and periodicals. His collaborative work has been published in book monographs and exhibited in American and European Museums. In 2000, he was elected Fellow of the International Institute for Advanced Studies (IIAS Germany) and also received an Outstanding Scholarly Contribution Award from the same institution. He has published over 25 scholarly and professional papers in national and international conferences. Mr. Rosales worked in New York for I.M. Pei and Partners, he participated in the winning entry for the Redevelopment of Madison Square Garden with SOM and Frank O. Gehry and Associates, and worked with HOK and Arquitectonica. Mr. Rosales was Director of the Architecture Program at FIU from 1996 to 1999 and coordinator of the Graduate program from 2002 to 2003. He has taught a variety of courses in design, theory, history and technology. He has been a design critic at other Florida institutions as well as in Venezuela and Costa Rica. Camilo Rosales has participated in ten research grants and contracts related to developments in architecture and architectural education that total over \$1,000,000.
