### **About FIU Department of Architecture**

With over 450 students, the Department of Architecture educates students in the profession of architecture to become thoughtful practitioners and critical thinkers. Students arrive at various points in their educational careers—as freshmen, as third-year transfer students, and as graduate students to pursue an accredited, professional Master of Architecture degree. The school also offers a post-professional Masters of Arts in Architecture in which students have opportunities to teach, research, and explore independent topics in close collaboration with our full-time faculty. As a Department residing in the College of Architecture and the Arts (CARTA), we engage in interdisciplinary and innovative collaborative research projects.

The Department's facilities are located in the award-winning Paul L. Cejas School of Architecture Building designed by Bernard Tschumi, which includes the fabrication, digital, and Structural and Environmental Technologies Labs. Additional facilities include the Miami Beach Urban Studios that houses the new 3D printing technologies CARTA Innovation Lab. Our faculty is engaged in a wide range of research and creative activities in sustainability and climate change, urbanism, affordable housing, green building automation, innovative teaching techniques, culture and history of global modernism, performative scripting, digital fabrication and architectural installations. To enhance student learning and support faculty research, the Department offers a diverse range of study abroad programs.
